Winter table runner patterns by Wasatch Quilting

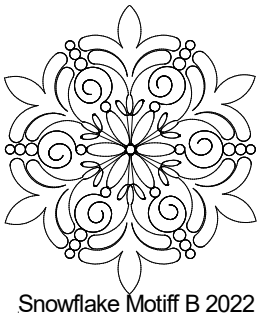

Use the same outline as the Fall table runner from last month…

Zoom class in November will be on these table runners!

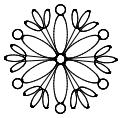

Winter table runner 20 x 70 outline

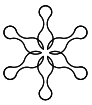

Snowflake Motiff A 2022

Snowflake Motiff B 2022

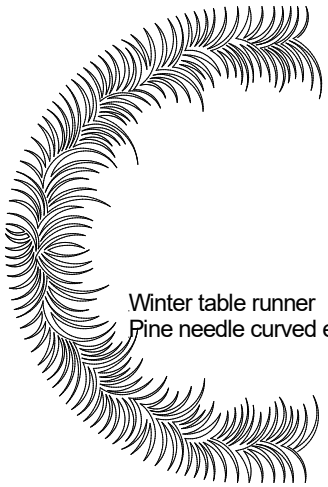

Snowflake Motiff C 2022

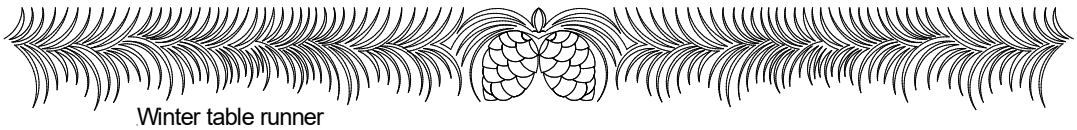

Snowflake Motiff D 2022

Snowflake Motiff E 2022

Winter table runner
Pine needle curved end

Winter table runner
Pine needle Top side P2P

Winter table runner
Pine needle Bottom side P2P

Winter table runner
tiny circle motiff

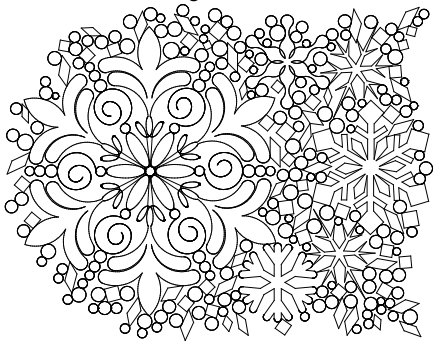

Winter table runner
tiny Sq on Pt motiff

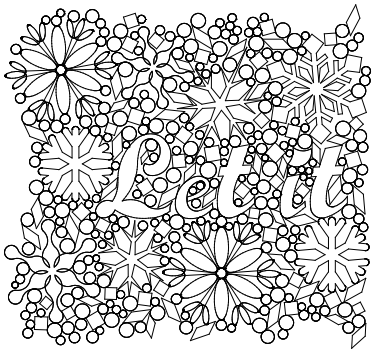

Winter table runner
tiny Parallelogram motiff

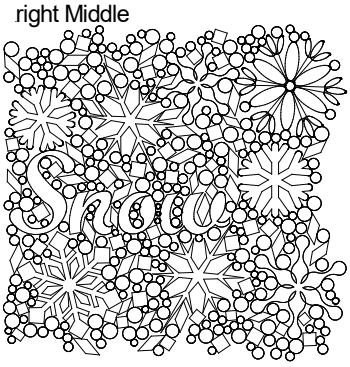

Winter table runner Snowflake
left and right side

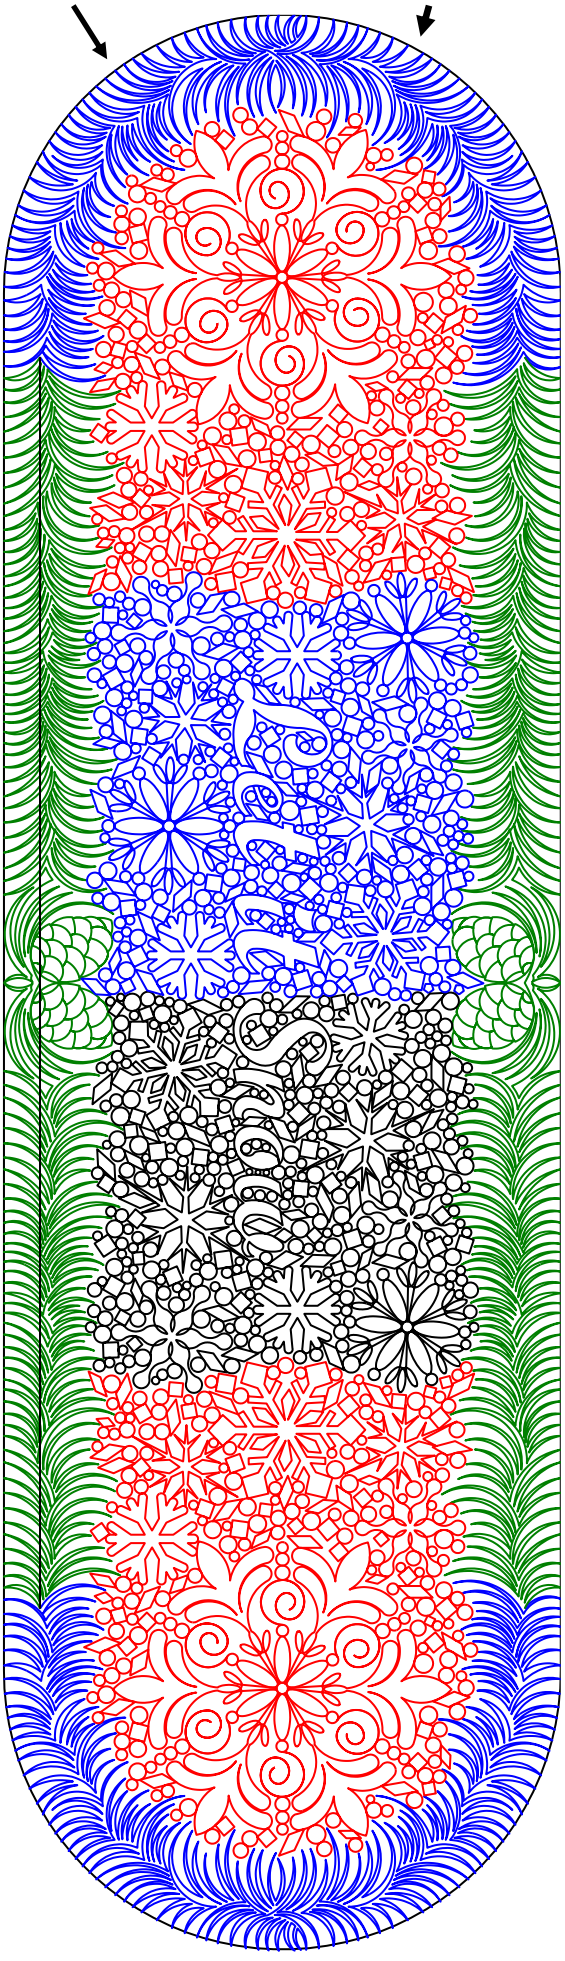

Winter table runner Snowflake
Left Middle

Winter table runner Snowflake
right Middle

Winter table runner 20 X 70

Use a 30 X 80 piece of fabric top and bottom…

Mark the middle by folding in fourths and marking the middle.

I used bamboo batting and glide thread.

This runner was designed the same size as the Fall one from last month. You will use the same OUTSIDE sew able outline from that one. YOU WILL NOT USE THE INSIDE SEWABLE OUTLINE.

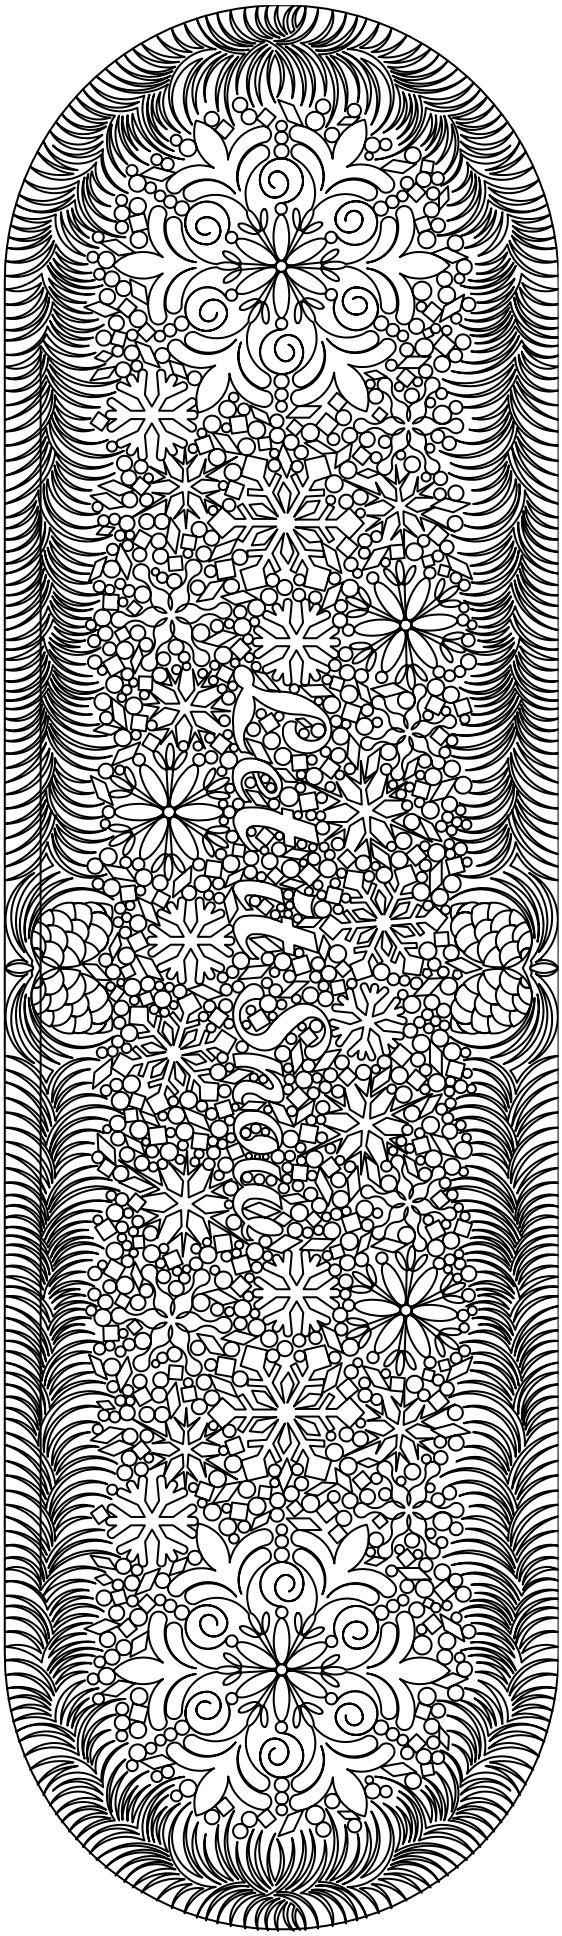

Sew the OUTSIDE sew able outline and echo it as you wish.

Don't sew anything except the outline yet, just get them on your screen

When you place the left curved pine needle side the outside of the pine needles should line up to the edge of the outside sewn outline. You can use your middle marking and mirror the left curved pine needle end. If it does not line up right where it should on the right end, you can move it until the outside of the needles line up with the outline. Notice that the inside of the pine needle border is not even, it is that way on purpose. The sides are P2P so you can use the point to point feature on the sides once the ends are in place.

REMEMBER AT THIS POINT YOU ARE JUST GETTING EVERYTHING ON THE SCREEN THE ONLY THING ACTUALLY QUILTED IS THE OUTSIDE SEWABLE OUTLINE.

Continued...

Now that your Pine needle border is in place bring the inside pieces onto the screen. Watch as you bring them in that the pine needles were designed to go in and out between the snowflake pieces… once you have them all on your screen and the pine needles adjusted where you want them you can quilt the middle pieces first…. That way you can do an outline of the middle pieces and adjust the pine needles in and out where you want them…

You can bling this up with crystals and a light sciff of paint on the letters and snowflakes...
